FEBRUARY.

FEBRUARY.

INSTRUCTIONS.

If your note is dated in January turn to January page; If in February turn to February, &c. Find the date of the note in the TOP ROW and the date STRAIGHT BENEATH will show the last day of grace according to the time for which the note or bill was given as indicated at each end of page.

EXAMPLE—A note is dated January 5th, given for thirty days. Find January 5th (see first page) and the first date straight beneath is February 7 upon which date the note would be subject to protest. If it was given for sixty days it would be due March 9; if for ninety days, April 8; if for four months, May 8, &c. If the note was dated in February turn to February page and so on.

ODD DAYS—See first table on back of each page. Example: A note dated March 1, given for 45 days. The calendar number of March 1st is 60. 60 plus 45, plus 3 days of grace is 108. 108 is the calendar number of April 18, upon which date the note would be subject to protest.

For additional months see second table on back of each page. These tables are guaranteed to be absolutely correct for any and all but leap years.
